

Warrior Pride Booster Club Meeting Minutes

Wednesday, June 10 2026

Attendees: Bubba Rhodes, Jim Bryant, Riley Nolan, Debbie Karlstrand, Jamie Domeier, Vince Armilio, Brianna Bruening, Brittany Bradshaw, Morgan Padilla, Amy Ellam, Margerat Riaz

6:37 Bubba Rhodes called the meeting to order and opened with a prayer.

Bubba asked for a motion to approve the minutes from the April meeting since we did not meet in May. Debbie moved and Riley seconded; minutes were approved.

Funding Request - A request was submitted for Cheer and represented by Brittany. Cheer is requesting funding for 2 additional mats. The existing mats are not the same size and thickness which creates challenges for practice. Over time they would like to expand to 9 mats of the same size which would create the same size area that is used for competitions. They have 2 existing mats that are the correct size and would be a match for the 2 being requested. Vince reported the current mats that do not match can be used by other clubs and sports. Mats are approx. \$1,300 a piece and we have room to store all 9 if they grow to that. When SPX gets to the ability to compete, having this setup gives them the same feel that they will have at competitions in February. They are doing fundraising for training and travel but are asking for assistance with the mats. Two mats will be \$2,600.

Presidents Report - Bubba discussed new role elections. The role of President is up for election. Existing Vice President Riley Noland was nominated for President and accepted. Riley was elected by the voting members. This created an opening for the Vice President. The role of Treasurer is also up for election but no nominations at this meeting.

Treasurer Report - Cash on hand is \$43,658.44 after liabilities \$20,111.44 is available for distributions. That sets us up pretty good for Summer. We have a lot of our initial commitments covered in the liabilities. WPBC fiscal year begins August 1st but our operating year begins July 1. We've shared details with Bob Lee regarding distributions and our normal annual commitments like scholarships, uniforms, and HUDL. WPBC is distributing quite a bit and we are going to work on getting the word out. Discussed the need to have the social media accounts updated so we can leverage those. Since 2022 we've distributed over \$347k.

Membership Report - Not much going on yet but a few have already purchased passes for the coming school year. We will start getting stuff organized for the back to school night. Expecting the same cycles as prior years.

Sponsorships - Meeting with Cindi to get all the handoff information. We've contacted Christian Brothers Roofing who has expressed interest at the second level. Last year we had around 95% renewals. We are anticipating similar renewals this year. The new athletic website does allow for some additional space for sponsors if they are interested in adding more. Already got a call for the Party Porch for Sr. Night. There are 4 home games so there are 3 left that we can advertise. Laura J. is on-board to do the catering again.

Scholarships - We had 2 Seniors who applied and received funds. We were able to do 6 scholarships for incoming freshmen based on the available funds.

Spirit Wear - The approach we did with Love Letters went over really well. We were able to make some money and the overhead was not bad. We'll get in contact with them soon to get ahead of the fall sports. Discussed potential for Spirit Wear at freshmen orientation night but that has been a challenge in the past. The evening schedule does not allow a lot of time for mingling and selling spirit wear and there are also some free t-shirts given out that night.

Athletic Director - Camps are starting up. Construction is supposed to start in a couple weeks to redo the front office to make a secure entry point for guests during the day. The phase 1 construction of the storm shelter is starting. Instead of bringing classrooms off the cafeteria they are proposing to add on to the 3 story building which should allow for 4 classrooms on the bottom, 3 in the middle and 2 on top. This could also allow space to address the restrooms for each floor. Incoming freshmen class is around 151 but that usually drops a bit before the start so SPX will be around 550 for the upcoming school year. Looking for a new girls golf coach and a new girls swim coach. Work is continuing at the tennis courts to provide shade. This will have to be done in phases but the first phase should be ready for fall. Girls wrestling will have an introductory camp June 29th through July 1st. Working with MSHSAA on a proposal for class assignments and points. Looking positive but still under review. If approved almost all sports could drop a class initially.
